

INTEGRATIVE MEDICINE & Intramuscular (IM) or IV INFUSIONS

Integrative medicine involves care delivered by Dr. Sackheim which includes personal and attentive care with a holistic and natural approach. The goal is to optimize the healing, health and personal well-being of each patient. This is achieved by offering or referring to the top providers in all fields. Dr. Sackheim works closely with physical therapists, massage therapists, acupuncturists, holistic medicine, one on one physician consultations and other wellness services. Traditional and complementary medicine are used to address all aspects of health to maximize healing and minimize pain, anxiety, stress, side effects, and decreased mobility. The whole person approach is used in all aspects of lifestyle. There is emphasis on the physician-patient relationship to maximize therapeutic benefit and a secure and open/trusting environment.

Dr. Sackheim offers a number of IV Infusions specific to each patient's needs.
